## DOINGS THE COUNTRY OVER

Alfred Monroe, aged 71, is dead in Clark county.

William K. Vanderbilt has contributed \$250,000 to assist wounded needy Italians in Rome.

J. T. Penderson, aged 79, is dead at Everett, this State. He was the father of 21 children, 12 of whom are living.

The President has re-appointed Dick Schmidt as postmaster of Louisville and J. W. King postmaster of Winchester.

The Frankfort Distillery, one of the largest in Kentucky, is the latest to be sold to contractors who will wreck it for the material there is in the building.

The Federal Trade Commission has granted to three American firms licenses to manufacture and sell two drugs which heretofore have been controlled by enemy aliens under American patents.

The State Tax Commission has raised the tax assessment on tangible property of railroads in many instances over 130 per cent, and probably will increase their total assessments about \$30,000,000.

At the request of the War Department Chairman Chamberlain, of the Senate Military Committee, introduced a bill for the registration for military duty of all men who have become 21 years old since June 5, 1917, when the draft law went into effect.

As a means of conserving fuel throughout the Eastern States, which have been vitally affected by the coal shortage, it is announced that Federal Fuel Administrators have recommended that President Wilson declare Monday a legal holiday throughout this territory for the next eight or ten weeks.

At the request of the Kentucky Traction & Terminal Company, an ordinance was introduced in the Frankfort General Council to permit it to charge six-cent fares. The company asserts that it is losing 26 cents on every dollar spent in operation of the local line and would either have to increase fares or cut out two of its three cars.

Representative McCormick, of Illinois, backed up by letters from Food Administrator Hoover, declared primary orders had discriminated against corn to such an extent that a large part of the nation's bumper crop of 1917 is threatened with destruction. The immediate appointment of a railroad executive experienced in handling corn shipments is urged to devote all his time to the movement of the crop.

The Chamberlain Bill proposing a Secretary of Munitions will be amended before it reaches the Senate for consideration, to such an extent that it is indicated the Senate Military Committee will push legislation for a new control of war supplies in the form of an administrator with broad powers under the President instead of creating the new department and Cabinet officer to which President Wilson and Secretary Baker object.

Proposed laws, approved by Food Administrator Hoover, are before Congress looking to stricter economy in food by the American people. The measures supplemental to the present food control act would make mandatory instead of voluntary the observance of wheatless and meatless days and other economies necessary that America may help sustain her co-belligerents. Rigid control of public eating houses which handle 50 per cent. of the nation's food supply is especially emphasized.

## WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Many Aches And Ills Of Stanford People

As one weak link weakens a chain, so may weak kidneys weaken the whole body and hasten the final breaking-down.

Overwork, strains, colds and other causes injure the kidneys, and generally when their activity is lessened the whole body suffers.

Aches and pains and languor and urinary ills frequently come, and there is an ever-increasing tendency towards dropsy, gravel or fatal Bright's disease. When the kidneys fail there is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys. Stanford testimony is proof of their effectiveness.

Mrs. E. J. Cooley, Whitley Ave., Stanford, says: "My kidneys were out of order and I felt run down and tired out. I had dull pains in my back and across my loins. The action of my kidneys was irregular. I read of Doan's Kidney Pills and bought some at the New Stanford Drug Co. This medicine soon put my kidneys in good order and relieved the symptoms of kidney trouble."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cooley had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## EXEMPTION REFUSED

Samuel Horowitz, who wanted an exemption from military service upon the ground that he is a vegetarian, said that the officials of his local board had told him that he wouldn't have to "eat the Germans," but "fight them." Isaac T. Flinto, chairman of the committee to which his appeal was referred, found this answer of the local officials quite fair and recommended that it be affirmed.—New York Sun.

Death very often comes as a liberator and in this guise made its appearance in the death of Mrs. Mildred Stigall, of this place, who for many months was a great sufferer.

She was a most excellent woman, whose many friends who are sad that she is no more. She was a devoted member of the Christian church and lived up to its teachings and when death ends a well spent life, there is no need for grief. Her devoted daughter and sons have a legacy left them of a loyal Christian mother who directed their early lives into channels that made them useful to the world and may they continue to remember her precepts and emulate her life as they grow older.

She was the blessed assurance she has entered rest and her good works follow her.

## A BEAUTIFUL RECEPTION

Mrs. T. W. Jones was host at a reception on Tuesday afternoon, complimentary to Mrs. Thomas Phillips.

Miss Anne D. McRoberts. It has been many moons since society folk of Stanford have attended a more perfectly appointed affair and fortunate indeed were those who were present. The pretty home was a veritable "fair palace." The decorations throughout the house were pink carnations and garlands of smilax, intertwined with pink tulle, studded here and there with wax tapers and electric lights. The center of the dining table contained a large flat heart of pink carnations, narcissus and smilax; festoons of smilax and pinks were suspended from the chandelier to the four corners of the table.

Misses Kate Davis Raney and Mary Early dispensed most delicious punch in the library. Receiving with the gracious host were Mrs. Thomas Phillips and Mrs. Hays Foster, each handsomely gowned, the bride carrying an arm bouquet of pink roses. Always of an engaging personality Mrs. Phillips was never more attractive than on this occasion. The dainty refreshments from Benedicts, consisted of pink and white individual ices, heart shaped cakes decorated with haws of pink candy ribbon and mints in pink and white roses. This was served by maidens fair in charming evening gowns which added much to the beauty of the scene. The souvenirs were hearts decorated with Dan Cupid, with drawn bow searching for some unsuspecting maiden's heart. An orchestra discoursed sweet music throughout the afternoon. One was impressed with the complete, matchless beauty of it all and felt all had been done incomparably well.

FUEL ORDER IS NOW IN EFFECT  
Fuel Administrator Garfield's drastic order restricting the use of fuel, effective last midnight, was promulgated shortly before 6 o'clock within a few minutes after the Senate had adopted a resolution asking that the order be postponed for five days. When the Senate clerk arrived with the Hitechock resolution he was told that the resolution would be given careful consideration, but that the order already was issued and would go into effect. Although the order was made public almost simultaneously with the announcement of the vote in the Senate, it had been signed and prepared for publication twenty minutes before. Virtually no substantial changes were made in the order, though some war industries specially designated will be exempted from the provision closing manufacturing plants for five days beginning today and from Monday holidays during the next ten weeks.

Fuel Administrator Garfield, in explaining his order that all industries cease for five days, declared tens of thousands of tons of vital necessities for American soldiers overseas and the Allies were loaded on ships tied up in Atlantic ports because their bunkers are empty of coal. The coal to send them on their way is waiting behind the congested freight that has jammed all terminals.

The Louisville Board of Trade yesterday voted unanimously to support the Government in the order of Fuel Administrator Garfield to close industries for a five-day period and on Monday of each week for ten weeks.

HAD THE DESIRED EFFECT  
Mr. Welch Rochester, treasurer of the Associated Charities Committee, says that the article printed in Tuesday's paper asking for funds had not only the desired effect but very quick results, several persons having come direct to the Lincoln County National Bank and made donations to the good fund. Others are again invited to help swell the amount. The winter has been and yet is an unusually severe one and there are many poor people in our midst who are in dire need of food, fuel and clothing. If you can help, it would be a mighty good deed to do so and do it now and thus relieve suffering humanity.

JAMES W. FOX DEAD  
Mr. J. S. Hocker received a wire from Horace Fox at Big Stone Gap, Va., Wednesday stating that his brother, Mr. James W. Fox, was dead and that his burial would take place at Paris Thursday. Mr. Fox, who was a director of the Boring Land Co., which has Stanford as its headquarters, made frequent trips to this place and he has a number of friends here who greatly regret his taking away. He was born in Bourbon county, but during his later years he spent his time at Big Stone Gap and in New York City. He was a half brother of John W. Fox, the author.

She is a daughter of that splendid old democrat, "Hickory Bill" Singleton.

SELLS I. O. O. F. BUILDING  
Mr. J. W. Avey, who bought the I. O. O. F. building, more recently owned by the State Bank, about a month ago, sold it Thursday to Mr. W. B. Hill. He paid \$10,000 for it and Mr. Hill is said to have gone home a couple of thousand better for it. Mr. Hill also pays for what improvements that have been made in tearing out the bank vault, etc.

\$800 AND 400 DAYS IN JAIL  
The Mt. Vernon Signal says that Hobart McClure, of that place, was fined \$800 and given 400 days in jail for selling and having in his possession for sale, whisky. It looks like that dose should teach the man what the vice-president name a lesson that he should not soon forget.

#### HERE AND THERE

Only eight British merchantmen were sunk by mines or submarines last week. These figures, given out by the British Admiralty in its weekly statement of shipping losses, shows a great decrease in the number of vessels sent to the bottom, as compared with the record for the two previous weeks, in each of which the aggregate was twenty-one.

Beginning today, all manufacturing plants, with a few exceptions, in States east of the Mississippi River, and in Minnesota and Louisiana, will be shut down for a period of five days, and on the nine following Mondays factories and business houses, with some exceptions, and all amusements, in the designated territories, will be closed, as the result of an order issued by the Fuel Administration, the object being to relieve the fuel famine brought about primarily by weather conditions, resulting in a tie-up of many lines of railroads.

#### WHAT NEIGHBORS-IN KENTUCKY Say About a New Discovery.

Many local people are glad to testify to the good results obtained from Anuric, the discovery of Doctor Pierce of the Invalids' Hotel, Buffalo, N. Y., for kidney and bladder disorders, backache, rheumatism and all uric acid troubles. This is what Mrs. M. J. Bidwell, of Cox's Creek, Ky., says:

"I want to tell all suffering humanity what a help Anuric has been to me. Before taking it I felt weak and dizzy, and did not feel like performing my household duties. I have taken two packages of the tablets and feel like a different person. I am so well pleased with the results that I want all my friends who have backache or trouble with their kidneys to know about this wonderful medicine."

When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the tissues, muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try Anuric, double strength, the discovery of Doctor Pierce, for kidney trouble and pains in back and all over body. Write Doctor Pierce, Invalids' Hotel, Buffalo, N. Y., and send 10c. for a large trial package—this will prove to you that Anuric is many times more potent than lithia and eliminates the uric acid from the system as hot water melts sugar—or ask your druggist now for a 50 cent bottle.

The Railroad Administration took steps looking to moving a number of machinists and other skilled railroad workers to the East from Western roads until the overburdened Eastern lines can make delayed repairs to locomotives and freight cars which now cannot be operated. This action is contemplated at once to meet the shortage of skilled railroad labor in the East.

A lively little spat is on between Owen McIntyre, of the Danville Advocate, and Shelton M. Sauffley, of the Richmond Register. The former is espousing the cause of Gov. Stanley and the latter that of Senator Beckham and the cutting and amusing things they are saying about each other would make a cat catchinate. But for the distance we would fear that pistols and coffee for two might be ordered, but as the weather is cold and snow deep, we are praying that they'll not get to each other. Democrats should dwell together in unity and conserve their ammunition for the common enemy—the republican party. There is no race on between the Governor and the Senator and probably there never will be. At any rate, let us suggest that sufficient until the day is the evil thereof.

#### The Interior Journal

E. C. Walton and J. H. Wright

"Leave to print" speeches that were never delivered in Congress is fearfully abused by fellows like Caley Powers, who take advantage of it for private ends. For instance he replies to the speech of Judge Robison at Williamsburg and secures its publication in the Congressional Record. Then he has thousands upon thousands of it printed at the expense of the government and loads the overcrowded mails with it to his constituency under his frank, thereby making the government pay hundreds of dollars for what only concerns the pardoned assassin suspect. He accuses the judge of ignorance and says it incapacitates him from serving in Congress and then animadverts on the folly of putting new and untried men in the halls of national legislation. Powers speaks of himself as an old and experienced member, but if he has done any thing to warrant the large salary he draws, the records do not show it. The 11th district is seriously handicapped by such a representative and it is pleasing to note that men like Chrley Finley and other supporters of Powers are realizing the futility of keeping him in Congress and will join in the effort to relegate him to the rear, where he should always have remained. He is a perfect figure head in Congress, without standing and without influence, and his people have paid dearly for gratifying a sentiment.

In view of the fact that H. Boyce Taylor, moderator of the General Association of Baptists, is preaching and writing against the Red Cross and the Y. M. C. A., which organizations are doing so much for the relief of suffering during the terrible war that has been forced upon us, the First Baptist church at Richmond has adopted resolutions severely condemning the wolf in sheep's clothing and demanding his resignation from the position he dishonors. This is the same individual who retired from the chair when a resolution was brought before the association commending the President's course and promising his hearty support. He should have been promptly removed from office then so that any subsequent utterance of his should not apparently have official sanction of the great and glorious denomination, his action insults. We commend the course of the Richmond church to all other churches so that the unpatriotic and treasonable course of this man may be brought into the contempt it so richly deserves. This is no time for the exploitation of such views as those entertained by this so-called shepherd of the church and there is no place outside of Germany for such as he.

A great many people were not able to buy Liberty Bonds, even though they were sold in denominations as small as \$50. "War Saving Stamps" is a device for enabling everybody to lend his money to the government and get a good return from it. They can be bought at any postoffice or bank at \$4.12 this month and Jan. 1, 1923, draw \$5, which is four per cent, compounded periodically. The credit of the government is behind these stamps, making them the best of investments. If at any time the purchaser should need the money he can get it refunded at the postoffice of registry by giving ten days' notice. War Saving Stamps give all of us a chance to help the government and at the same time lay up something for a rainy day. Investigate the proposition and help with your money, while thousands of the flower of the earth are helping with their lives.

In these days when so many murderers go unwhipped of justice, it is reassuring to read of the hanging in Boston of a broker, who killed his wife, Massachusetts, it will be seen, stick to the gibbet for murderers and takes no stock in the so-called humane method of putting them out of by the electric route. No humanitarian concern should be wasted on those who take life, especially with the wife-murderer. The old fashioned gallows is good enough for them.

Despite the brevity of the following note from a boy now in France, it will be as authentic and will go far toward dispelling the fears of certain girls who were left behind. "These French girls who are supposed to be pretty, haven't got anything on the girls at home."

With only fifteen members of the Legislature "fermest" prohibition, as shown in the vote on the national amendment, it looks like the pros are strong enough to put the question out of the way now and get down to business that will redound to the interest of the State.

Administrator Garfield's order closing stores, theatres, factories, offices, saloons and other places on Mondays for ten weeks, will conserve a big lot of coal, but that it will cause a great inconvenience, none will gainsay.

An Ohio man turned his wages over to his wife every Saturday night for a period of twenty-five years, and then she eloped with another man. And yet there are some people who would ask us believe that woman is the weaker vessel.

A news item informs us that women's dress styles for this year will effect a 25 per cent. saving in material. Wonder which end the dear things will economize at this time?

Somerset has a man named Chester Kaiser. He should be permitted to change his surname to some other not so suggestive without a special act of the Legislature.

"I enclose you \$1.50 for the best local paper in Kentucky," writes the Interior Journal's friend, P. M. Vest, of Humphrey, Casey county.

Mr. R. H. Ratson, of Lancaster, was here this morning returning from St. Petersburg, Fla., where he had spent the last two weeks. He says the weather was fine there.

Mrs. J. G. Carpenter, who has been ill for some time, has sufficiently recovered to visit her daughter, Mrs. Homer Carpenter, in Lexington. She returned with Mrs. Carpenter.

Mr. Thomas Jennings, the Rowland merchant, is now a grandfather. His daughter, Mrs. J. C. Reid, of Danville, presented her husband with the cutest kind of a little daughter the other day. She has been named Eganetta Reid.

Mr. Tinsley Spoonamore says the severe cold spell which began Friday night last and continued several days, was the worst he has ever known, except one in 1863, and that did not beat the one of a few days ago very much.

Eld. J. Q. Montgomery and attractive daughter, Miss Bessie, left last week to visit Bro. Montgomery's son, Mr. George Montgomery at Brunswick, Ga. Mr. E. L. Gadhery, of Waynesburg, and sister, Miss Bessie Tarter, of Yosemite, were in town Friday.—Liberty News

The Richmond Register says that Mr. W. P. Kincaid, of this city, was there the other day en route to Cincinnati to sell 15 hogheads of tobacco. He has bought lots of tobacco in Lincoln, Boyle, Garrard and other counties, and we are glad to say has done well with his purchases.

Mayor Florence received a card from Hon. W. H. Shanks, who with his wife, left a week ago today for White Springs, Fla. He said that his train finally arrived, but was 30 hours late. For 24 hours on the trip they were not able to get anything hardly to eat and the train was so cold that it was really uncomfortable. To add to their discomfort, their trunk had not arrived and they had not been able to get trace of it. Evidently Mr. and Mrs. Shanks are not having a thoroughly enjoyable trip this time.

## RECEPTION FOR HER SISTER

The reception given on Thursday afternoon by Miss Susan Fisher Woods at her beautiful country home was a charming affair for Miss Woods' friends to meet her sister-in-law, Mrs. Robert B. Woods, Stanford's latest bride, who was formerly Miss M. Kay Sallee, of Harrodsburg. For the occasion the spacious home was decorated very artistically in pink and white, carnations and smilax, being used in profusion and lighted by candle light. In the library, Mesdames Richard C. Hocker and Alfred L. Pence served tea and black cake. The lovely hostess and bride, who received the guests, were beautiful crowned in pink evening dresses and the bride carried a corsage bouquet of sweet peas and roses. Sweet strains of music were dispersed from the Victrola during the entire afternoon. The dining room, where an elaborate luncheon was partaken of was a thing of beauty. The centerpiece of the large dining table was pink roses. Mrs. J. S. Rice very gracefully presided at the coffee urn, and Mrs. Sanford M. Allen, of Millersburg, at the salad bowl. They were ably assisted by Mrs. Samuel J. Embury, Jr., and Miss Sue Taylor Engleman. The souvenirs, tiny bows of pink ribbon, were presented to the guests by little Miss Susan Fisher Woods, who proved herself an artist at it. There were something like a hundred invitations issued, but the severe cold weather prevented many who would like to have had the opportunity of being in the home of Miss Woods, who is at all times an ideal hostess, and meeting the bride, who is a very charming lady.

### STORY OF GRAY'S ELEGY

Thomas Gray took seven years over the composition of his immortal Elegy, and even on its completion showed the utmost diffidence regarding its publication.

Indeed, he does not seem to have seriously considered the question of printing the poem until—through Horace Walpole's enthusiasm in distributing manuscript copies—it came to his ears that the Magazine of Magazines intended to make use

of it, when to counter the pirates he gave Walpole instructions "to make Dodsley print it immediately, from your copy, but without my name."

Five days later, on February 16, 1751, Dodsley, with commendable promptitude, issued a large quarto pamphlet, anonymous, priced 6d., entitled "An Elegy Written in a Country Churchyard."

Within ten years fifteen authorized English editions were called for, the printed editions were countless, and it was "lifted" by about every magazine in the country.

A 13-year-old boy in Brooklyn, N. Y., stole his older brother's clothes, discarded his short pants and succeeded in enlisting. His mother found it out and brought him home.

### NO MORE CALOMEL FOR THIS BARBER

Nashville Tonsorial Artist Says He Has Found Better Way to Get Relief Than by Taking Calomel—Takes Vin Hepatica

"If a fellow was ever knocked out by anything, I certainly was by a good old-fashioned spell of spring fever this spring," said U. L. Bearden, well-known Nashville barber, 243 Fourth avenue, north, "but thanks to Mr. G. M. Spencer, the paint contractor, 617 Commerce street, for stating in the papers how he got such wonderful quick relief by taking that good medicine, Vin Hepatica.

"I have been using calomel, which was so sickening that I could scarcely stand it. Not only did Vin Hepatica put me in fine shape again, but it was so pleasant to take. I hadn't taken more than two or three doses than my drowsy feeling was all gone and I was feeling fine. I am my old-time self again.

The fact is, Vin Hepatica is Nature's own medicine for stomach, liver and kidney troubles. It is made from eight of the greatest medicinal roots and herbs known to medical science, all combined into one medicine, known as Vin Hepatica, the Universal System Purifier and Tonic.

We strongly recommend this great Nature remedy. Come and get a bottle and try it, on our recommendation. We know it is a real medicine of the highest merit.
